

OPENING POWER TO DIVERSITY NEWSLETTER

Earlier this year, Crosscare Migrant Project launched a ground-breaking initiative for migrant political integration. Now in its second round, the 'Opening Power to Diversity' sees migrants placed with TDs for a six month internship.

This initiative aims to give participants a unique insight into the workings of the Irish political system, and to foster increased interest in Irish politics amongst the wider migrant community. The long term objective is the creation of a more diverse, transparent political system. The scheme was recently endorsed by the [Taoiseach](#).

For further information, visit the [Living in Ireland](#) website where you will find diary articles from participants, media coverage and TD endorsements.

ALFRED'S STORY

"In taking part in the scheme, I hope to learn more about the Irish political system and showcase some of the rich contributions that foreign born nationals resident here can bring to our political system."...

EKOW'S STORY

"I want to deepen my understanding of the art of politics. Some of the people in Leinster House have been there for many years so for me, it's a great opportunity to tap into their experiences and to grow leap and bounds in understanding how the system works"...
