

Endorsement from Micheál Martin TD

"I fully endorse and welcome the 'Opening Power to Diversity' project. My party believes it is a very innovative policy that will benefit both the Oireachtas and the participants involved. Spending six months in Leinster House as an intern allows immigrants to experience Ireland's democracy in action. It also allows us as elected representatives to learn from the intern's personal experiences. Political involvement and diversity is crucial to a functioning democracy and the more engagement there is in projects like this, the better.

I would like to take this opportunity to congratulate Crosscare not only for taking the initiative on this diversity project but for all their tremendous work."
