Children's Rights

Children's rights are human rights for all children and young people under 18 years of age and are laid out in the United Nations Convention on the Rights of the Child. Ireland ratified the Convention but has not incorporated it into domestic law.

Children First are the national guidelines for the protection and welfare of children. These guidelines are intended to assist people identifying and reporting child abuse and to improve the practice in state and voluntary organisations that provide services for children and families.

Age of consent to sexual activity

The age of consent is the age at which people can legally have sex. In Ireland the age of consent (in a homosexual or heterosexual relationship) is 17.

What is the legal age to get married in Ireland?

For general information and contact details for local funeral directors you should contact

Irish Association of Funeral Directors

Telephone: 1800 927 111

Website: www.iafd.ie

What are the traditions and customs related to death in Ireland?

The majority of Irish people are Catholic. Therefore, when someone dies there is a wake which usually takes place in the person's home. People come to the house to pay their respects to the family. The body is then taken to the church for the removal service. The following morning the funeral mass is said and the body is taken to a cemetery for burial or crematorium for cremation.

People close to the family usually give a floral wreath which is placed on the grave after burial. Other people usually get a mass said for the deceased which is written in a mass card and given to the family. A month after the funeral there is a mass said for the deceased. It is called the Month's Mind.
